TECNET IS PLEASED TO ANNOUNCE IT'S PC REFURBISHMENT PROGRAM

Victoria, BC — September 29, 2010— Tecnet Canada, a BC based computer service firm, today announced that it has added professional PC refurbishment to its portfolio of services and product offerings. This program will allow Tecnet to provide like new product to organizations for significant savings.

Tecnet is adding the Tecnet refurbished PC program to its portfolio of offerings allowing it to provide more cost effectively hardware solutions. This offering will allow organizations who might not have funding for net new hardware to stay on current technology platforms. This product paired with Tecnet services will allow an organization to maintain its technology for much less than it has in the past. Some of the technology services that would allow this are the following:

- Tecnet warranty cover products professionally refurbished by Tecnet with an onsite warranty program that offers next business day service on hardware failures at a low rate.
- Tecnet managed services make your IT costs more predictable and reliable, reduces risk to your data and IT assets, and frees up your resources so you can focus entirely on your core business activities.
- Tecnet Helpdesk, leave all your IT troubles to us enabling you to focus on efficiently running your business, our single point of contact helpdesk is flexible and is designed to be customized to your unique business needs and budget providing you with professional expertise.
- Tecnet Hardware-as-a-service offers additional cost management by reducing your capital expense into small monthly service fee on hardware procurements.

"Tecnet's PC refurbishment program allows Tecnet to provide a cost effective solution to organizations that may struggle with capital expenses while keeping them at the edge of technology that enhance customer productivity and profitability,.." said Matthew Van Heyst, Account Executive. "

About Tecnet

Tecnet is a one-stop vendor-neutral computer support and maintenance firm.
